Art Unit: 1714

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim*** rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim*** of U.S. Patent No. *** in view of ***. ***.

Claims 1-20 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-18 of copending Application No. 09/780,548 in view of Corvasce et al. The copending application claims tires with a tread/sidewall structure and composition overlapping in all properties except for the absence of the instantly claimed starch/plasticizer composite. The secondary reference to Corvasce et al teaches art known benefits flowing from the incorporation of this component into tire compositions.

Therefore, it would have been obvious to one of ordinary skill in the art to incorporate the starch/plasticizer composite of the secondary reference into the tire compositions of the primary reference. The motivation is the benefits taught by the secondary reference.

Art Unit: 1714

This is a provisional obviousness-type double patenting rejection.
